ABOUT US

Hindon Metaforms Pvt Ltd was established in 1979. Since then, we have been upward in growth and success. Over 4 decades, our single unit developed into four well-equipped and professionally managed units. Today we are respected manufacturers of bicycle hubs, chain wheels, bicycle frames, two-wheeler parts, auto OEM parts, and agricultural parts. We employ state-of-the-art machinery which ensures high accuracy, quality, and efficiency.

QUALITY POLICY

We are dedicated to serving society through our quality products, and we try to find various methods to reduce wastage and improve production and productivity. Quality at our end means that the products being delivered meet the agreed specifications of our customers with continual improvement. We have a high-tech laboratory, tool room, and engineering department.
